

Cerbo's Parsippany CSA Membership Contract 2021

Thank you for making a conscious decision to support local agriculture by becoming a member of the Cerbo's Farm CSA program. Community Supported Agriculture (CSA) is a way for you to become personally invested in our farm operation and receive a portion of our harvest throughout the growing season. Our CSA program offers a full share sized to feed a family of 4-6 and will be filled with produce that varies throughout the season covering a wide variety of fruit and vegetable crops. Our half sized share is designed for families or friends of 2-4 with a similar selection as the full size but in lesser quantities. Although Cerbo's strives to have a plentiful harvest and produce a wide variety of quality produce, we reserve the right to supplement our boxes with items from other local farms when necessary to ensure a satisfactory portion and variety in each box. Our full share box size is a 1 1/9 bushel. Our half share box size is a 1/2 bushel. Boxes will be picked up once per week on Fridays from July 2nd 2021 until October 15th 2021. Cerbo's will issue a membership card to each CSA member to be presented upon each weekly pick up. In the event a member cannot pickup their box on a Friday, they may request to pick up on Saturday, or request to give their membership card to another individual to pick up for them. Our full share program costs \$32.81 per week for the 16-week program for a total of \$525. Our half share program costs \$21.88 per week for a total of \$350. Payment must be received in full, cash or check only, prior to June 15th and is nonrefundable (Make all checks payable to Cerbo Horticultural Services LLC.). Cerbo's places the utmost importance on food safety. Despite our efforts, it is always recommended that produce be washed thoroughly prior to consumption. Thank you for choosing to eat fresh and eat local.

Acknowledgement of Contract Terms and Conditions

I have read the above information and agree to comply with the terms and conditions of the 2021 Cerbo's CSA program. I understand that farming is a seasonal and unpredictable undertaking. Natural disasters such as drought, windstorms, and "acts of God" may impact what products are available, how much of a particular product is available and the quality of the product. I understand that these conditions could occur and affect the product that I receive or even result in an entire crop being destroyed.
